

# ERO VSL BARREL PRUNER

# ERO VSL BARREL PRUNER

The ERO VSL Barrel Pruner is designed to meet the requirements of all vineyards, whether spur pruning or 'topping' in VSP canopies to make cane stripping faster and easier.

Modular construction and multiple options allow configurations to suit all types of canopy and work duty, from small vineyards to large contract operators.

The VSL can be used with the mast unit and electronic joystick on your existing ERO trimmer or defoliator to save you time and money.
